Atlanta- The Commission of the Council on Occupational Education (COE) has granted accreditation to LIUNA Chicagoland Laborers' District Council Training and Apprentices Fund. Announcement of the action was made by Dr. Lois Gackenhaimer-Richards, Commission Chair, following the September Commission Meeting of the Council on Occupational Education on September 17, 2022.

The award of accreditation status is based on an evaluation to demonstrate that the institution meets not only the standards of quality of the Commission, but also the needs of students, the community, and employers.

The Commission's evaluation process includes an extensive self-study by the institution and an intensive review by a visiting team of professional educators representing the Commission's member institutions from other states.

LIUNA Chicagoland Laborers' District Council Training and Apprentices Fund began its self-study in January 2021 and underwent a team visit in May 2022. The visiting team chairperson was Krishna Maddipatla.

The Council on Occupational Education, based in Atlanta, Georgia, offers quality assurance services to postsecondary technical education providers across the nation. Organized as a non-profit corporation, the mission of the Council is to assure quality and integrity in career and technical education. Services offered include institutional accreditation (recognized by the U.S. Department of Education), program quality reviews for states and technical education providers, and informational services. Most of the Council's work is carried out by qualified professional volunteers who are experts in technical education.

Institutional membership in the Council is voluntary but can be achieved only by becoming accredited. The Council's current membership makes it unique. Members include postsecondary public technical institutes, specialized military and national defense schools, Job Corps Centers, private career schools, non-profit technical education providers, corporate and industry education units, federal agency institutions, registered apprenticeships schools and national ERISA training institutes. No other agency accredits and serves the diversity of organizations served by the Council. There are 560 institutional members at the present time.

Best regards,

Keith Vitale
Executive Director
